

## Join the Alfresco life

We specialise in the sale and installation of retractable awnings, glass veranda patio roofs, glass rooms, bespoke fixed and retractable roof canopy systems both for the home and all types of commercial premises.

From the initial telephone conversation and on-site consultation, through to the professional installation, you will be impressed with our commitment to customer service, quality products, and pinpoint attention to detail.

Alfresco prides itself on providing cost effective, bespoke solutions for clients, balancing aesthetic desire with budget requirements. We fit beautiful structures where other companies struggle on price and vision.

## Sun Awnings

Alfresco Awnings add living space to your home or premises and bring the feel of alfresco luxury to your lifestyle. That 'on holiday' feeling can be maintained all year round.

Offering shade from the sun and shelter from the rain, Alfresco Awnings transform your outdoor space into an extra room for enjoying outdoor living.

The addition of infra red outdoor heaters and LED lights will further enhance your outdoor engagements late into the evening.

An awning over your outdoor hot tub keeps you comfortable even in rain.

## Rain Awnings

In addition to the primary function of sun protection, we also provide awnings that can be used in heavy rainfall.

With the increasingly unpredictable weather in the UK, rain awnings allow you to enjoy your space in peace, free from anxiety over impending showers. With the addition of glass sliding sides these units provide comfortable protection from strong winds and enable you to remain outdoors whatever the weather.

## Glass Veranda Roofs

Alfresco supply the highest quality Glass Veranda Patio Roofs on the market with beautiful style and design, superior strength, 10mm glass and concealed rainwater drainage.

Add space and feel as if you are still in the garden you love even when it is pouring with rain.

Alfresco Glass Veranda Roofs are CAD designed for a custom fit and installed by our experienced teams who have been factory trained in Germany by the manufacturer.

## Visit Alfresco

Alfresco have an extensive showroom in Thame Oxfordshire, showing the highest quality products from our trading partner who in our opinion, supplies the best outdoor living products in the world.
